Favorite Browser Picks: how it is put together

sketched from the files

Favorite Browser Picks: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed. GK

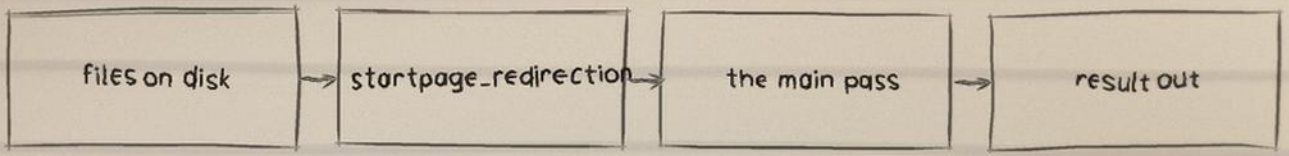

Product map: what Favorite Browser Picks is for

WHAT IT IS	WHAT GOES IN
A small project in JavaScript, Markdown. The README and the files are the whole claim.	The files at the top of the tree: startpage_redirection.JS, README.md.

WHAT COMES OUT	WHERE IT STOPS
What the top files produce when they run or get read. Nothing else is promised.	No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, GK

Favorite Browser Picks: data flow, in one direction

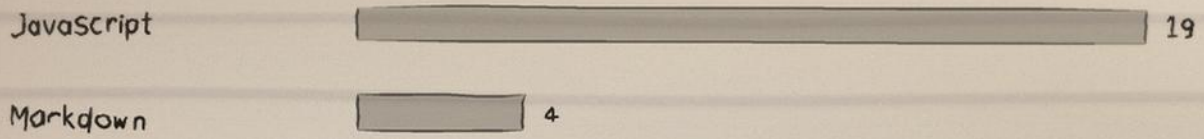

One direction. Anything the code does not do is not drawn.

second sheet, GK

Favorite Browser Picks in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

2 files in the tree.
3 commits, first 2025-04-27, last 2025-04-27, from the local git log.
No test files by name in this snapshot.

counted and drawn, GK

Favorite Browser Picks: schematic of the apparatus

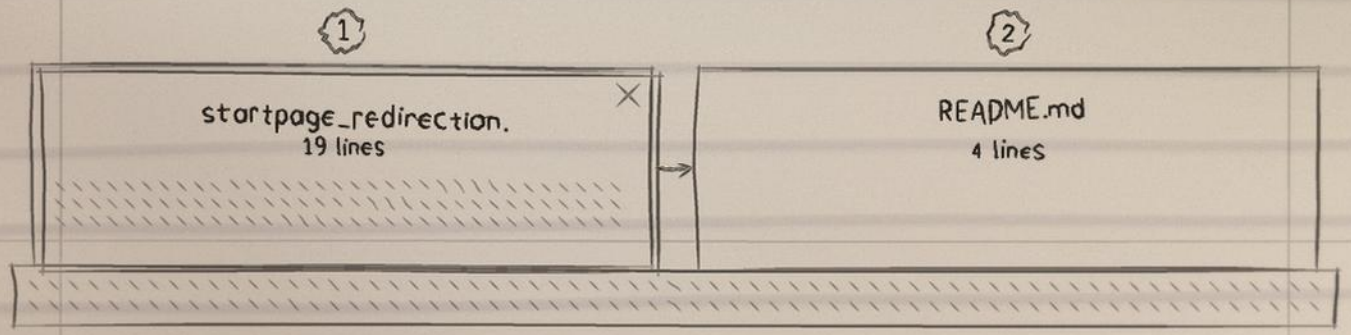

the system as a machine: parts, flow, and measurements

construction lines left in, as drawn

parts list

1. startpage_redirecti.
2. README.md

in flow order, first to last

base plate: the repo itself, sectioned

span: 2 files, 23 lines counted

turns of the crank so far: 3 commits, 2025-04-27 to 2025-04-27

measured and sketched, GK
